

MATHEMATICS EDUCATION TECHNOLOGY TALK

Presenter: Dr. Safi

Topic: How to Purposefully Integrate Technology
When Teaching Mathematics

*March 4TH 1:30–2:30 PM
IN SCP229*

Technology has become such an important part of our society that it is now making its way into the classroom. It will benefit future educators to learn about technology in the classroom before they enter the field. Dr. Safi will present different techniques and tools for K-12 teachers to integrate technology into their math lessons.

**This will count as a
Department Colloquium for all
Math Education Majors**

**Presented by
TCNJ CSTM**
