Applied Mathematics Specialization Checklist
(for students declaring the specialization on or after Fall 2018)

1. Required Core Courses:

__________MAT 127 Calculus A
__________MAT 128 Calculus B
__________MAT 229 Multivariable Calculus
__________MAT 200 Proof Writing Through Discrete Mathematics
__________MAT 205 Linear Algebra
__________MAT 275 Sophomore Seminar
__________MAT 310 Real Analysis
__________MAT 326 Differential Equations
__________STA 215 Statistical Inference
__________MAT 498 Capstone (must be the Applied Mathematics section of Capstone)

(Capstone Prerequisite: attendance to 4 seminars in junior/senior year)

2. MAT/STA Options

- At most two of the six courses may have an STA prefix.
- At most one of the six courses may have a non-MAT or STA prefix.
- Students can take at most one course unit of independent study, guided study, or independent research as one of the six course units (MAT/STA 39x/49x). However, this will not count as an applied math elective course

__________400 level course from the Applied Math Options list
__________300 or 400 level course from the Applied Math Options list
__________300 or 400 level course from the Applied Math Options list
__________Any course at the 300 or 400 level with MAT or STA prefix
__________Any course at the 300 or 400 level with MAT or STA prefix
__________Any course at the 300 or 400 level with MAT prefix, OR
BIO 471/CSC 471, CHE 372, CSC 335, CSC 445, FIN 360, PHY 401
3. Choose one of the following options for the computer science correlate:

- CSC 220 Computer Science I AND CSC 230 Computer Science II
- CSC 250 Accelerated Computer Science I and II
- CSC 220 Computer Science I AND MAT 341 Computational Mathematics
  (for any option: grade of C- or better in CSC220)

4. Choose one of the following options for the lab science correlate:

- BIO 201 Foundations of Biological Inquiry
- CHE 201 General Chemistry I
- PHY 201 General Physics I

  * Any lab course in Biology, Chemistry, or Physics numbered 200 or higher except PHY306 or PHY390.

Applied Math Options List:

MAT 315 Topics in Linear Algebra
MAT 316 Probability
MAT 317 Linear Programming
MAT 330 Mathematical Biology
MAT 331 Numerical Analysis
MAT 341 Computational Mathematics
MAT 426 Partial Differential Equations
MAT 430 Seminar in Dynamical Systems
MAT 454 Seminar in Applied Mathematics
STA 318 Operations Research
